Aug 12, 2022 • Proven solutions After shooting a video with your Android smartphone, you may need to edit it for better quality and make it more fantastic. In this article, we will introduce two kinds of ways to edit videos shot by your Android phone. One recommended way is to directly import video from your Android phone to desktop-based video editing software for advanced editing. The other one is to edit by using free video editor apps running on Android systems for easy editing. There are so many free video editors for the Android smartphone. In this article, we picked up the top 10 best free video editors for the Android system, including Vlogit, FilmoraGo, VivaVideo, Quik Video Editor, KineMaster, Funimate, Magisto, WeVideo, AndroVid, Adobe Spark, and VidTrim Pro. Keep reading to get more detailed information about the top 10 best video editing apps for Android. If you need to edit your iPhone video and do not know which video editing app is best for your iPhone, you can check free iPhone video editor apps. You May Also Like: How to Edit YouTube Videos on Android Phone >> Part 1: Recommended Desktop Video Editing Software for Android Videos On an Android phone, editing videos can be a bit difficult due to the restrictions of the screen. Editing your video with the applications running on your Android devices is certainly rather convenient, but the cons are that they are usually quite limited when it comes to functions and features. It is highly recommended you try Wondershare Filmora, a desktop-based software that supports directly importing videos from your Android phone. All you need is to plug in a USB and let the program detect video files located in your Android phone, and then import them to the program for editing. Check our video tutorial guide to learn the detailed tricks of editing videos with Filmora. Filmora's reign as the king of video editors for beginners could be the abundant editing features it offers. With all basic video editing functions such as trimming, splitting, adding music, texts, voice-overs, etc. Filmora also comes with many advanced editing functions such as green screen, speed ramping, auto beat maker, video overlay, transition, mosaic, tilt-shift, jump cut, and dozens more. What's more, you can stabilize your shaky video footage with the built-in Video Stabilization function. With 300+ fancy visual effects from Filmstocks, NewBlue, and Boris, and an array of other funny tools, it offers you an intuitive interface to help create and share your created home movie in a much easier way. After finishing editing, you can save the video to your Android smartphone, iPhone, or iPad, or directly upload the video to your Facebook, YouTube, or Vimeo to share with your family and friends, or burn it to the DVD collection. Part 2: Top 10 Best Free Video Editing Apps for Android #1. FilmoraGo Price: Free System Requirement: Android 4.2 or higher If you want a pro tool to edit your videos and media files shot with your Android phone, then the FilmoraGo Video Editor is the best. It has almost all the editing functionalities you'd need from a PC editing program. It allows you to create a professional image slideshow and add soundtracks. It boasts itself has more than 30 video effects that you can play with and the editing process is very easy, so you can make your video more enjoyable, creative, and unique. You can also share your videos with friends and family members on social media platforms such as Instagram, Facebook, and YouTube. Learn more about Funimate video editor >> #6. Magisto Price: Free with ads System Requirement: Android 4.0.3 or higher Magisto is an easy-to-use video editor app, which can turn your video clips into a music video automatically with three easy steps. Pick up your images and videos, select the desired soundtrack, and then add a title. This app is wonderful for people who do not want to spend too much time on video editing but still want a cool look. Learn more about Magisto video editor >> #7. WeVideo Price: Free with ads System Requirement: Android 4.3 or higher WeVideo is an all-in-one cloud-based collaborative video editing app, which allows you to create, edit, and publish videos on your Android phone. It provides nicely designed themes that attach specific songs and visual styles to your project. You can also choose to use your own music if you prefer. Once the editing is finished, you can share your video with the app's own network or publish it on different social media platforms. What you should note is that you have to upload your clips to the company's server before you can start editing, and then you have to reupload the edited video after you finished. Learn more about WeVideo video editor >> #8. AndroVid Price: Free with ads System Requirement: Android 3.0 or higher AndroVid is a very handy video editor with many features, which allows you to cut, trim, edit, and add music at any instant. You can easily cut and trim your videos, and remove the part of the video which you don't like. It also gives the advantage of adding text, frames, and effects to your videos. And you can add effects, such as fade in and fade out, swapping, and slow/fast motion to your video. You can choose frames for your videos which will be shown on the screen of the viewer first. It can also use to create beautiful slideshows with music and special effects. And the best feature of the tool is to convert any video into mp3 by this tool for free. Learn more about AndroVid video editor >> #9. Adobe Spark Price: Free System Requirement: Android 4.4 or higher Adobe Spark is a free video editor, which allows you to create quality videos fast with fun. You can edit your video with various tools, effects, and music. What's more, the app can create a video automatically using your images. If you do not want to do it by yourself. And after you finish editing, you can share it to social media or easily open it in Adobe Premiere Pro on PC or Mac for extra polish. Learn more about Adobe Spark >> #10. VidTrim Pro Price: Free with ads System Requirement: Android 2.3.3 or higher VidTrim Pro is a video editing software and organizer for Android. It offers multiple features such as trimming, frame grabbing, video effects, extracting audio, and transcoding. It is often considered as one of the best Android video editing app with many great features and an easy-to-use interface. It is not free, but you can have a free trial to test whether it can satisfy your needs before purchasing it. You can also share the videos with your friends on social media platforms through the app. You may also like: How to Edit Samsung Videos There are an ever growing number of Android video editors available on the Play Store today. And unless you know exactly what your requirements are, it can become overwhelming to zero in and figure out which is the best video editing app for Android. So in this article, we will give you a low down of the top 10 best video editing apps for android - both free and paid, to help you make a more informed choice and kickstart your video editing journey. Here are the ones we'll be covering: 1. Filmr2. Quik3. FilmoraGo4. Kinemaster5. Viva Video6. WeVideo7. Video Show8. Magisto9. InShot10. Power Director 1. Filmr The Filmr app is a super easy-to-use video editing app for Android as well as iOS-based phones. Perfect for both beginners as well as advanced video creators- it has a simple, fast and intuitive interface. You can add transitions, effects, filters and more to transform a basic video to something that is uber cool. If you're looking for speed, agility and a premium look for your videos, Filmr is the place for you. Review: Filmr has gained an overall rating of 4.4/5 based on reviews from 8,126 users and has 1 million and growing downloads on Playstore. Price: It has a free version that allows you to create videos with an InVideo watermark. The paid plans start from \$15/month Key Features: - No limit on the number of images/videos you can import - Smooth and unique transitions between videos- Multiple fonts

to make your text stand out- Switch video format with ease: horizontal (16:9 and 4:5), vertical (4:3), and square (1:1)- 20 million+ royalty-free music library- Exclusive filters and effects to transform videos - The best thing about Filmr is that it has zero ads! - It has a vertical editing timeline that makes video editing super convenient, unlike other apps- Can reorder videos, photos and audio clips with a simple drag-and-drop - Lets you search for any song with a simple search or add music from your existing files- Reverse, Rotate and Flip videos with one tap- Get rid of the watermark easily by just watching an ad or going PRO- Save to gallery or export directly to any social media app- Set the duration of the transitions down to specific seconds- Directly shoot videos via the app and edit- Customise the duration of text on video on the text bar Cons: - There is no undo option in its Android version- Limited number of filters - Cannot record a voice-over directly on the app- Cannot choose the video resolution before saving- It does not support multiple languages Note: The Filmr iOS app has an extensive library of filters, effects, transitions, video-on-video and a lot more to choose from. If you happen to have an iPhone or an iPad, you can try it out. 2. Quik Quik is one of the best free video editing apps for Android, brought to you by GoPro. With the Quik app, you can create awesome videos in just a few taps. Automatically add transitions and effects and apply beat-synced themes to create stunning and shareable edits. It does most of the editing automatically; however, Quik also lets you customize fine details. Review: Quik has gained an overall rating of 4.4/5 based on the reviews from 476,637 usersQuik is a free video editing app for Android phones. Price: Quik is a free video editing app for Android phones. Key Features: - Add up to 75 photos and video clips from your gallery, cloud storage, or GoPro Plus- Compatible with motion photos - Unlimited back-up at 100% quality- GPS Stickers to showcase GoPro video's speed- AI-powered face, movement, and sound detection for the perfect frame. Open to manual corrections- 23+ themes for any occasion- Record, trim or rotate videos, add text overlays, change video speed - Videos in various dimensions - square, portrait, or cinema- 100+ free songs for background or add your own- HD 1080p export- QuikStories - works with the GoPro App and compiles excellent videos with media shot within the last 72 hours.- The PRO version automatically backs up your GoPro footage Pros: - Can handle videos taken from any camera or device- Handles 4k video, which is a great win over other apps- Does not leave a watermark- Great for basic editing - Quik's mural feature lets you create your best shots as separate events- Auto edits music to match the video beat Cons: - Keeps your project on cloud storage only for a limited time so you cannot go back and edit it whenever you want to- The absence of the undo option makes it difficult to go back to the previous edit- Unsatisfactory customer support. Issues and bugs stay unresolved even after several reports by users.- The automatic edits makes it low on customization 3. FilmoraGo A pretty powerful video editor application. Filmora go is also one of the best free video editing app for Android phones which will not stamp a watermark or place a time limit on your clip. It helps you create decent videos with a wide variety of effects and presets. You can easily share your videos with your friends on Youtube, Instagram, Facebook, WhatsApp right from the platform. Review: FilmoraGo has gained an overall rating of 4.6/5 based on the reviews from 626,723 users. Price: Filters and effects can be bought via in-app purchases ranging from \$0.99 - \$34.99 per item Key Features: - Import from social networking sites like Instagram and Facebook- Extensive library of licensed songs- Lip sync your videos- Make videos in various dimensions - square, cinema- Reverse, trim or rotate videos, add text overlays, play with speed- Multiple Fast or Slow motions in the same video- Change motion and timeline of title, can add multiple titles- Supports many international languages like German, Italian, Turkish, Japanese, Korean, Arabic, Russian, French, Spanish, etc Pros: - Easy to use and loaded with free features- Professionally done, high-quality videos- Access to high-quality preset templates in the PRO version Cons: - The abundance of presets, filters and effects are not backed by strong how-to tutorials- The audio always fades out towards the end of the video- The horizontal timeline makes video editing cumbersome 4. KineMaster KineMaster is a full-featured video editor for Android. It has powerful tools that are easy to use. It has over 2500 downloadable transitions, effects, videos, images and transitions. The addition of EQ presets, ducking and volume envelope tools makes audios on KineMaster super immersive and powerful. The premium subscription also features unlimited exports in resolutions up to 4K. Review: KineMaster has gained an overall rating of 4.4/5 based on the reviews from 4,511,621 users. Price: Yearly Charge after seven-day free trial \$18.10 Monthly Subscription \$3.47 Key Features: - In-built graphics, fonts, stickers, transitions, clips, and more to beautify your video- Multiple layers of video, stickers, images, text, etc- It includes a keyframe animation tool to add motion to layers- Voice overs, voice changers, sound effects, background music- Create beautiful effects with a blending mode- Share on YouTube, Facebook, Dropbox, etc Pros: - Includes green screen, audio adding, extracting, volume control, chroma key and more- Can add multiple audio and video layers which is great for advanced creators- Can download multiples assets like stickers, images, backgrounds, etc. from its asset store - Consistently updated Youtube channel for how-to tutorials Cons: - Hard to crop videos and audios with a tightly fitted timeline- Takes time getting used to - The subscription doesn't reflect across devices at times- The app only operates in horizontal mode which might feel a little uneasy - Extremely advanced for beginners - Leaves a watermark in the free version 5. VivaVideo VivaVideo is a free video editing app for Android that comes with all the basic functions you can think of, as well as several advanced features that make it a top contender. VivaVideo is one of the most comprehensive video editing apps, with video editing features like making videos from pictures with song, editing video with transitions, adding video to video, combining video clips, adding music to video, and much more. It features hundreds of Special Effects/ Stickers/ Filters/ Animated clips to transform your videos. You can directly share the video to your social media handles from within the app. Review: VivaVideo has gained an overall rating of 4.6/5 based on the reviews from 12,970,605 users. Price: Monthly Plan \$2.23 Yearly VIP Membership \$11.85 Key Features: - Professional music video maker with songs and effects- Make videos from pictures and songs easily- Several video editing effects: blur background, slow down videos, speed up videos, etc- Combine several video clips to make one video- Can cut, edit, merge, paste while editing a video- Export videos at your desired resolution like 720p, 1080p, 4K, etc Pros: - It has an inbuilt slow-motion video creator- Works exceptionally well for short clips for social media- Super easy to use, even for an amateur- Cut clips and place them anywhere you want Cons: - Every new update creates issues in the app functioning- Tends to delete text or image, or place it anywhere on the video- Multiple issues while adding music to video- Hard to add and manage more than one audio/video file- The high number of ads in the free version makes it difficult to focus 6. WeVideo WeVideo for Android makes it easy, fast, and fun to create and share amazing videos. It has been featured in TechCrunch, CNET, ReelSEO, The Next Web, Wired, and more. With WeVideo's Video Editor App, you can capture memories wherever they happen and transform them into breath-taking videos and share them on YouTube, Facebook, Twitter, Instagram, and more. WeVideo Professional or Business plan has even more benefits like expanded music and theme libraries, professional-quality graphics, no WeVideo watermark, etc. Review: WeVideo has gained an overall rating of 4.0/5 based on the reviews from 164,724 users. Price: Professional Plan \$41.81/month and \$249.47/year Unlimited Plan \$14.63/month and \$86.41/year Power Plan \$9.06/month and \$53.66/year Mobile Pass \$3.76 one year pass Key Features: - Create stunning videos with exceptional video themes and video filters- With selected upgrades, you can publish up to 4K Ultra High Definition video- Use the blurred background to enhance your vertical videos- Add your own music or use its royalty-free library for a custom soundtrack- Publish and upload to YouTube, Dropbox, Instagram, Facebook, etc Pros: - Good for basic video editing requirements- Easy to create slideshows with hardly any effort- Good for quick social media shares and compilations Cons: - Very limited music, text fonts and themes in the free account- Requests permission to access product usage which might feel like an intrusion- You cannot remove the watermark in the free version- Tough to adjust music beats with the video- Cannot share the video directly to any social media 7. VideoShow VideoShow offers excellent video editing features. It is an easy and practical video editing app & movie scene maker for both art directors and beginners. With the help of this video cutter, you can reverse, blur, duplicate, edit, merge, trim, split, collage clips, or videos. VideoShow also allows you to add subtitles to any video, or to change its audio. It also lets you take any video on your device and apply different filters. The app contains an inventory of over 50 elaborate themes for stunning music video/slideshow/vlogs instantly. Review: VideoShow has gained an overall rating of 4.6/5 based on the reviews from 5,704,936 users. Price: Annual Subscription \$135.19 One-Time Purchase \$225.78 Key Features: - Create artistic subtitles with a variety of text fonts and styles- Reduce video size directly in the app- Easy and practical for professionals as well as beginners- One can easily shoot videos through the app and edit them- Can extract audio from existing videos- Doodle on video (only in VIP version) Pros: - Great transitions and multiple music choices- Can add as many images to a single video- Supports collage of images on video- Join multiple videos in a single clip- Beautiful themes to enhance videos- Can set a precise time-cut to change audio Cons: - Problem while sharing videos directly on social media- Lack of quality after exporting video- The themes can only be used in square mode- Watermark in the free version- 2K+ higher quality videos cannot be edited in the free version 8. Magisto Magisto uses sophisticated A.I. to find the best parts of your recording. It smartly applies editing techniques including video stabilization, filters object detection, effects, and auto-crop, to create mind-blowing videos that outshine the average slideshow or collage. Designed as your 24/7 personal movie editor, Magisto combines clips, photos, filters, music, text, and effects to help you tell your story. Once in a while, Magisto will present you with a fully automated private surprise movie by converting the photos and video clips from your gallery. Review: Magisto has gained an overall rating of 4.1/5 based on the reviews from 1,133,767 users. Price: Monthly Subscription \$5.85 Annual Subscription \$18.43 Paid Yearly, [\$1.53/month] Key Features: - Share your video content on social networking platforms with a single tap- Pick royalty-free music divided by genre, mood and category - Add music directly from your device- Combine clips, photos, stickers, music, texts, filters, etc. to make a fabulous video- Turn every video into a story with the app's intelligent AI Pros: - This app is best for beginners without much experience in video editing- It is semi-automatic- all you need to do is select your videos/photos and let Magisto's AI guide you to the rest- Has a neat and simple interface - Can create multiple videos quickly with customisable pre-made templates - They have a feed where you can see videos posted by other users Cons: - Not much room for manual video editing- They have a help center but it isn't easy to contact their support team via email/phone- AI does most of the work, it isn't possible to choose specific or minutely-timed transitions- Too many recurring review pop-ups 9. InShot InShot is a powerful video editing app for android in addition to being a movie maker with features like trim & cut video/movie, add music, text, stickers and glitch effects, blur background, and No Crop. It provides basic yet powerful video editing features, thus helping you test out your creative skills. It encourages you to create incredible videos with ease for TikTok, YouTube, Instagram, WhatsApp, Twitter, etc. Review: InShot has gained an overall rating of 4.8/5 based on the reviews from 11,994,317 users. Price: After 7-Days Free Trial \$9.06/year and 75 cents/month Monthly Subscription \$2.65 One- Time Purchase \$27.18 Key Features: - Video Splitter, Video Trimmer and Video Cutter- Merge and join clips from two different videos- Powerful pro video editor for Instagram, YouTube, TikTok, Musical.ly, etc- Loads of unique filters and colorful backgrounds- Supports multiple formats/ratios- Adjust music volume with a fade-in and fade-out feature Pros: - Easy to use and super convenient for beginners- Multiple choices for text, music, stickers, effects and a lot more- Can resize videos and posts as per your need- Can add different transitions after every new photo or video clip- Can do detailed color correction for videos and photos Cons: - There's no undo option to go back to your previous edit version- Ads can be inconvenient to some users- It is slightly difficult to trim audio clips. Each song starts from the first beat and might be confusing for first-time users. 10. PowerDirector PowerDirector is an Android video editor that lets you create videos in 4K quality, edit videos with multi-timeline features, and share them on YouTube, Instagram and Facebook. It lets you add music, transitions, motion titles, effects, emojis, filters and more to enhance your videos. It is also featured as an Editors' Choice app on Google Play. Review: PowerDirector has gained an overall rating of 4.5/5 based on the reviews from 157,8358 users. Price: Quarterly Subscription \$3.72/year Monthly Subscription \$5.57/year Yearly Subscription \$39.72/year Key Features: - Export videos with up to 4K resolution- Video Stabilizer to fix shaky footage- Chroma key to edit green screen background- Add glitch and transition effects to make the video look futuristic- Overlay clips to produce double exposure effects- Multiple blending modes and multi-timeline interface Pros: - Add multiple layers and customize/edit each one separately- Easy switching between computer and phone with its integration to Cyberlink- Royalty-free stock library- Download videos/images directly from Google drive- Pre-made templates help in creating videos quickly- It has ample how-to tutorials to learn about each feature Cons: - Too many ads and unnecessary notifications- The files take too long to load- Limited to a horizontal editing interface Summing up Now that you have the list of top 10 android video editors of 2022, go ahead and download the app that fits your requirements. If you're looking for ways to enhance your video-making skills, do check out our blog on making cool edits to your videos in under 5-minutes.
